### APPLICATION FOR STORAGE OF DISMANTLED/INOPERATIVE VEHICLE(S) OR PARTS THEREOF

**Victorville Municipal Code Section 13.02.110 - Vehicles or parts thereof.**

(a) No person shall store or keep any dismantled or inoperative vehicles or parts thereof, within the city for a period longer than three days. An exception may be granted to a person to store or keep any dismantled or inoperative vehicles, or parts thereof, only when a permit therefor has been obtained from the planning commission on application regularly filed, setting forth the location and manner in which the vehicles are to be kept, the reason for the request and permission from abutting owners. The planning commission may require, as a condition for the issuance of such permit, that any dismantled or inoperative vehicles or parts thereof be stored or retained within a structure or property enclosed by a wall or solid fence in good repair or another view-obscuring device.

(b) Nothing shall prevent an individual from requesting an extension of time for the storage of such vehicles. If the vehicles are to be stored for the purpose of restoration, the applicant may be required to provide evidence to the planning commission of progress made toward completion of the restoration when requesting such extension of time.

(c) A vehicle is operative only if it displays a current vehicle registration and is in condition to be legally operated upon a public street or highway within the state.

(d) The planning commission shall have the authority to revoke a vehicle storage permit if the use to which the permit applies has been conducted in a manner detrimental to the public health, safety and welfare. No permit shall be revoked until such time as the planning commission has conducted a hearing on the matter where the permittee has been noticed of such hearing.

(e) Any violation of this section is a misdemeanor.

The information required on this application must be provided prior to this request being submitted to the Planning Commission for consideration.
