Aboveground Storage Tank

Three complete sets of plans to include:

- Fully dimensioned plan
- Assessor's Parcel Number, street address, building number and/or suite number (if applicable)
- Name, address, phone number and license number of the general engineering contractor ("A" license classification)
- Scope or description of work
- Plot plan showing tank location, other buildings, property lines and public ways
- Detailed drawings for all tanks
- Details of tank foundation and impact protection
- Electrical plans and details (including areas for classified or hazardous areas)
- Type of commodity stored in tank
- Canopy details (if applicable)

Additional requirements:

- Manufacturers design cut sheets for all materials used in storage and/or handling of hazardous materials

All plans and documents submitted shall be drawn to scale. These are the minimum general requirements for plan check submittal. Additional documents may be required upon review.
