### Public Water Improvement

#### Three complete sets of plans to include:

- Fully dimensioned plan
- Assessor's Parcel Number, street address, building number and/or suite number (if applicable)
- Civil engineer name and stamp
- Point of compass
- Tract number and name (if applicable)
- Equipment symbol legend
- Pipe size and placement to hydrants
- Size and location of all water supplies
- Size, length, location and material of fire service mains
- Point of connection to City main
- Sizes, types and locations of control valves
- Depth of bury diagram
- Number, size and location of hydrants, including size and number of outlets. Indicate method of restraint. Detail pipe system, thrust blocks and fitting locations.
- Size, location and piping arrangement of FDC, PIV and/or OS&Y

#### Additional requirements:

- Flow report dated within one year (on Water Department letterhead or Fire Department form) (for new sprinkler installation only)

**All plans and documents submitted shall be drawn to scale. These are the minimum general requirements for plan check submittal. Additional documents may be required upon review.**
