Good News to Use — Pass it On

Brandman University, formerly Chapman University College, is launching a **new school of Nursing and Health professions degree programs**. They are also offering an Obesity and Bodyweight Regulation class online through their Extended Education.

Midway Appliance is celebrating its 49th year in business. The long-time Victorville business began nearly 50 years ago by Cliff and Esther Lager in a small repair shop on Midway Street. Today the business occupies nearly 2 acres on Atstar Drive off of La Paz, and is run by son Don and his two daughters Chandra and Lora.

High Desert Resource Network will celebrate their 10 years of service to the High Desert Community on September 24th.

Burrtec Waste Industries has converted six of their collection vehicles from diesel powered trucks to trucks powered by CNG (compressed natural gas). These vehicles include three residential automated trucks and three commercial front loading trucks to be used on trash and recycling routes.

Desert Valley Hospital, sponsor of the new **Mall Walker “Heart & Sole” Program**, hosted a special VIP Breakfast last week for the walking club participants. Nearly 60 of the 250 registered walkers were recognized for their sixth month commitment to the program and dedication to improving their health through walking and exercise.

Walkers enjoy a climate controlled environment and safe route within the Mall of Victor Valley and meet new friends.

Each participant establishes personal monthly goals and are rewarded for their milestones. Certificates and special gifts will be distributed at the breakfast as an encouragement to continue the program and help strive for a healthier lifestyle and improve medical conditions like hypertension, diabetes, and weight loss goals.

For more information on the “Heart & Sole” program, please call Sylvia Gonzalez at (760) 241-1200 or visit her every 1st and 3rd Wednesday each month from 8-9:00 a.m. in the Mall Food Court.
