City of Victorville Selected for Exclusive What Works Cities Initiative

In March, Victorville became one of just Twenty Seven U.S. Cities and the first city in Southern California to be selected for Bloomberg Philanthropies' "What Works Cities" initiative – one of the largest-ever philanthropic efforts to enhance the use of data and evidence in the public sector.

As a What Works City, Victorville will receive expertise from world-class consultants who will help the City use data more effectively to improve service to the community. The goal is to make the City's data more accessible to the public, engage residents around City priorities and services, and to increase transparency and accountability.

For example, a third-party, app developer could utilize Victorville GIS and permit data to map the locations of community yard sales. Similar concepts could be applied to map construction sites and road closures in the city.

Pictured from left to right are Victorville employees appointed to serve on the City's Open Data Governance Working Group: Sue Jones, Dana Armstrong, Karla Luther, Jenele Davidson, Loraine Stevens, and John Mendiola.

Victorville took its first foray into open data with its Financial Transparency Tool in October 2015. Located on the City's website, this open data application gives the public access to Victorville's financial data such as the City's budget, expenditures, and revenue.

Now, as a What Works City, Victorville is furthering its commitment to open data with the creation of an open data policy that was adopted by the Victorville City Council on April 5. Victorville is establishing an Open Data Governance Working Group as part of the policy. This group, comprised of employees and community representatives will create a comprehensive list of the City's data sets, advise the City Council on which data sets are of greatest importance to the public, and help establish the portal residents will use to interact with the data.

Victorville Recreation's NEW Online Enrollment Site!

The City of Victorville's Recreation Division is now taking online enrollment for activities, classes, and sports programs! The new online site through ActiveNet went live December 10, 2015 making it easier for you to sign up for all your favorite programs. To access the site, go to www.VictorvilleRec.com and click on the link "Register Online". When you get to our enrollment site on ActiveNet, just set up your account and you'll be ready to enroll. Staff will still be available at Hook Community Center during regular business hours Monday-Thursday for those who prefer to register in person. We're doing everything we can to make participation in our programs as convenient as possible. For further information about enrolling online, call Hook Community Center at 760-245-5551.

PARK

A Run in the Park 3K/5K

May 21 - Brentwood Park,

July 9 - Tom Hanks 5k Run

Celebrate Tom Hanks' birthday by dressing up like your favorite

Tom Hanks movie' (free if you do!)

(We are not expecting Tom to attend, but you never know...)

Cost: \$5 per runner (Kids 13 & under free!) Check in at 7:30. Run starts at 8:01am.

Register at Hook Community Center or online then check in at the Park on the day of the event.

It doesn't matter if you're a runner yet or not. If you are, then use it as a workout. If you've never run, use it as motivation. Either way, come out with fellow runners who are just like you and want to have some fun with their motivation! We provide water, music, a cool local bib, and a fun time! We do not offer official timing, which is why we only charge \$5!

In What Level Should I Enroll?

I'm glad you asked! Lessons are broken down by age then skill level. We offer something for everyone! Read the descriptions carefully and please remember the following:

Most kids struggle to pass Tot Intermediate or Level 3 and up. We highly encourage kids to REPEAT a level as it only helps to strengthen and reinforce what is being taught. Please do not place your child in a higher level because a sibling/friend is in that class. If your child is not able to demonstrate the required skills that were learned in previous swim levels, they may be removed from the class without the opportunity for a refund.

Pool passes will be issued due to unforeseen pool closures, i.e. inclement weather, accidents, etc. Please enroll carefully! There will be no refunds, transfers or credits issued.

Victor Valley Bicycle Tour Planned

If you're looking for a great bicycle tour of the Victor Valley, the Second-Annual Victor Valley Bicycle Tour is the event for you! Scheduled for Oct. 29, this event provides something for riders of all abilities. The event will include a Century Ride (100 miles), a Metric Century Ride (100 Kilometers or 62 miles), a 25-Mile Ride, and a 10-Mile Family Fun Ride.

The tour is organized by a group of community volunteers who want to raise

awareness of safe bicycling in our communities and to promote cycling as a healthy lifestyle for both recreation and transportation.

In its inaugural year, the Victor Valley Bicycle Tour drew 200 riders. Building on momentum from last year, the event organizers hope to double the number of participants this year.

Be sure to watch for more information about this year's tour on the web at www.victorvalleybicycletour.com, or Like the Victor Valley Bicycle Tour on Facebook.

Improvements to Bear Valley Road Set to Begin

The City of Victorville will be reconstructing a one-mile stretch of Bear Valley Road between Mariposa Rd. and Balsam Ave. Construction is expected to begin in late April and end in July. This project is designed to make Bear Valley Road safer for motorists and pedestrians. In addition to reconstructing the road, we will be adding ADA-compliant pathways and improving pedestrian crosswalks at traffic signals. Specifically, we are reconstructing the lanes that lead to the I-15.

Traffic patterns will be affected and lane closures will take place, but at least two lanes of Bear Valley Road will be open during the daytime and one lane will be open throughout the evening hours giving motorists access to businesses in the construction zone throughout the duration of the project.

We are making every effort to complete this important, road-improvement project quickly and with as little disruption as possible. The result will be a much safer, better road for all of us.

You are welcome to call our Engineering Department at (760) 955-5158 with any questions you may have.

BIKEWAYS – A Grand Plan for Victorville

The Victorville City Council recently adopted a plan to provide the community with bike lanes and bikeways to make bicycling a safer, more viable means of transportation in Victorville. Over the next five years, two phases of upgrades to major thoroughfares including Bear Valley, La Mesa, Hesperia, Amethyst and El Evado Roads and Air Expressway will take place with La Mesa Road planned to take place during 2016.

Phase One of the bikeway project includes the Mojave Riverwalk Project, consisting of a four-mile, paved bicycle and pedestrian path from Bear Valley and Fish Hatchery roads that continues to the Yucca Loma Bridge, passes under the bridge, parallels Yates Road on the north and continues to the entrance of Mojave Narrows Regional Park.

During Phase Two, bike lanes will be installed on Hesperia Road from Green Tree Boulevard to Forrest Street, as well as portions of Sixth Street, C Street, Fourth Street, the Transportation Center, Sixth Street and the Mojave River Levee. Green Tree Boulevard and Seventh Street will complete the bike lane loop with Hesperia Road.

The bike lanes will be added during a broader road-improvement effort in Victorville. Local Transportation Funds (LTF) will be used to pay for the bike lanes.

Currently, this bikeway project is estimated to cost \$12 million. Approximately \$8 million will be used from LTF, and \$4 million will come from grants. Actual costs will depend on future construction costs.

With the improved infrastructure, Victorville residents will have a new way to get around the High Desert while embracing a healthier lifestyle! Be sure to check for updated information and maps on the City of Victorville website at www.victorvilleca.gov.

State of the City Shows Victorville is Improving in Key Areas

Members of the Victorville City Council reported on the State of our City, Feb. 3. All indicators show that we are gaining momentum and improving in key areas. Specifically, sales tax revenue has increased, several road improvement and development projects are complete, new business licenses and housing permit requests are up, burglaries are down, and clean up efforts have left the City cleaner. We had

Water Conservation Update

The Drought is not over!

Last year, Gov. Jerry Brown ordered over 400 cities and water agencies throughout the State of California to reduce water use by 25 percent, compared to use in 2013. In response, California has reduced 1.1 million Acre-Feet of water!

The drought is not over and Californians are urged to stay focused on Conservation. Although, El Niño contributed an average amount of rain and snow this season, it has not relieved four years of exceptional drought we have experienced. Victorville appreciates your efforts! For more information about how to conserve water or about the "Save Our Water" public education program, please visit www.saveourH2O.org or join the effort on Facebook and Twitter.

WHAT DOES A 20% REDUCTION in water use look like?

AVERAGE DAILY USE

The average Californian uses 196 gallons of water per day. Here are some easy ways to reduce water use. Find the right combination for you to reduce by 20% or 39 gallons a day.

What's New With Environmental Programs

Do you have 'The Right Stuff?'

New Mattress & Boxspring Recycling Program For Victorville Residents

In January, the City of Victorville began accepting mattresses and boxsprings for FREE at the City of Victorville Recycling Drop-off Center. Items accepted for free are twin, full, queen, and king mattresses, and boxsprings. (No infant/crib mattresses, sleeper/sofas, mattress toppers, or futons accepted.)

The program is part of the new State-wide mattress recycling program in California, required by State Law SB 254. The California Used Mattress Recovery and Recycling Act aims to reduce illegal dumping, increase recycling, and substantially reduce public agency costs for the end-of-use management of used mattresses. The legislation established an industry-run, statewide program to increase the recovery and recycling of mattresses at their end-of-use.

Used mattresses/boxsprings collected through the program are hauled to a recycling facility where they

are completely dismantled. Wood, scrap metal, and foam padding material are all recovered for recycling. From 80-90% of the weight of the mattress can be recycled!

Reminder: Victorville residents of single-family homes can also have mattresses and boxsprings picked up FREE through the Bulky Item Pickup Program. Call Victorville Disposal at 760-245-8607.

The Victorville Recycling Drop-off Center is located at 15164 Anacapa (between Amargosa & Borego). It is open M-F, 8 a.m. to 4 p.m. and Saturday 8 a.m. to 12 noon.

Your Recycling & Trash Questions Answered!

- Q.** I'm a DIY oil changer. What should I do with my oil and filters?
A. Take oil AND filters to the City of Victorville Household Hazardous Waste Collection Center, or to another Used Oil Certified Collection Center (CCC). You can drop off oil and filters for FREE. Go to www.VictorvilleRecycles.com to find a list of Used Oil CCCs in Victorville. Do NOT put filters or oil in the trash—it is illegal, plus it is a waste of a valuable resource. Used oil can be filtered/cleaned to be used again. And oil filters—even after they are "drained"—still have about 10 ounces of oil in them. Oil filters are sent to a recycler to be drained of remaining oil, then the steel is sent for recycling!
- Q.** What do I do with household batteries?
A. Please keep them separate from other trash or recyclables. Do NOT put them in trash or recycle barrels. Take them to the City of Victorville's Household Hazardous Waste Collection Center, Loves Lane, off of Desert Knolls Drive, behind the Fairgrounds. It is open Wednesdays and Sundays 9 a.m. to 4 p.m. You can drop them off for free. Household batteries contain various metals that can be an environmental hazard, if not disposed of correctly.
- Q.** What do I do with light bulbs?
A. Fluorescent lights—either compact or tubes—must be kept separate from trash and recyclables. Handle them carefully to prevent breaking or cracking. They contain mercury which can be released if you break the bulb. Take your fluorescent lights to Victorville HHW Collection Center. Home Depot and Lowes also accept fluorescent lights for recycling. Bring lights to customer service/returns counter.

Animal Care & Control

What you need to know about licensing your dog...

Every dog that lives in the City limits must be licensed and vaccinated against rabies in accordance with the City of Victorville Municipal Code. This helps protect the general health, safety and welfare of all persons within the City.

New residents have 60 days to acquire a license for their dog(s), and persons renewing a dog license have a 30-day grace period following the expiration/renewal date.

In addition, no more than three adult dogs or adult cats can be maintained at a single residence.

Licensing is easy! You can download an application from the City's website, then bring it in with proof of rabies vaccination and certificate of sterility, if applicable, to the Victorville City Hall, Cashier's Window, 14343 Civic Drive, M-Th 7:30 - 5:30 or the ACC Division Office, 14206 Amargosa Rd., M-Th 7:00 - 4:30. You may also mail your application to Victorville Animal Care and Control, PO Box 5001, Victorville, CA 92393.
