

Did you know?

**Over 120,000
aluminum cans
are recycled every
minute in the
United States alone!**

Americans drink an average of 370 beverages in aluminum cans each year. Thanks to those who do recycle, the recycling rate for aluminum cans is now 50%...That's a lot of cans!

**If Americans recycled all
the aluminum they throw
away it would be enough
aluminum to build the
entire commercial airline
fleet EVERY three months!**

In 1972, 53 million pounds of aluminum cans were recycled. Today, we exceed that amount WEEKLY...Keep up the good work!
