**FISCAL IMPACT:**

None

**DISCUSSION:**

California's State Appropriations Limit places a "ceiling" each year on the amount of monies that can be spent from local government tax proceeds. Most appropriations are subject to the Appropriations Limit; however, the law does allow exemptions for capital outlay, debt service and subventions. Tax proceeds in excess of the Limit over a two year period must be rebated to taxpayers.

The adoption of Proposition 4 in 1979 and later amended by Proposition 111 in 1990 established the requirement and procedure for establishing an appropriations limit for local agencies. In brief, the amount of revenue that the City is annually authorized to appropriate is limited by factors relating to changes in population and the economy. The population factor selected may either be the rate of change in population for the City or for the County. The economic factor selected may either be the change in California's per capita personal income or the change in non-residential assessed property valuation due to new construction. In other words, the formula works as follows:

$$\frac{(\% \text{ change in population (City or County)} + 100)}{100}$$

TIMES (multiplied by)

EITHER

$$\frac{(\% \text{ change in California per capita personal income} + 100)}{100}$$

OR

$$\frac{(\% \text{ change in non-residential assessed valuation} + 100)}{100}$$

The value determined by the formula set forth above is then applied to the previous year's Limit to yield the new Appropriations Limit for the fiscal year.

For Fiscal Year 2017-18, the percentage increase in County population growth was used since it was greater than the City's (1.16% vs. 0.43%). With respect to the economy criterion, the percentage change in non-residential assessed property valuation due to new construction was used since it was greater than the percentage change in California's per capita personal income (5.5381% vs. 3.69%). The Appropriations Limit for Fiscal Year 2017-18 may be set at \$1,006,212,704 (1.0116 x 1.055381 x Fiscal Year 2016-17 Appropriations Limit of \$942,479,048). The calculation of Fiscal Year 2017-18 Proceeds of Taxes subject to the appropriations limit is \$43,294,259. Therefore, the City of Victorville is under its Appropriations Limit by \$962,918,445.
