Engineered Grading Inspection Report

Job Address: _____ Permit No.: _____

Rough Grading Inspection (This section shall be completed when fills occur on a project.)

Fills were installed upon properly prepared material and compacted in compliance with Title 16 Chapter 5, Article 2 (16-5.02) of the Victorville Municipal Code and where the report of an engineering geologist has recommended the installation of buttress fills or other measures, such work has been completed in accordance with the approved design.

See attached report for compaction test data, recommended allowable soil bearing values and other special recommendations.

Expansive soils: _____ Yes _____ No Lot No(s): _____

Remarks: _____

Engineer Signature: _____ Reg. No.: _____

Phone No.: _____ Date: _____

By Grading Engineer (This section shall be completed on all projects.)

The rough grading has been completed in accordance with the approved plans including: grading to approximate final elevations; property lines staked; swales and terraces ready for paving; berms installed; required drainage slopes provided; and where reports of an engineering geologist and/or soils engineer have been prepared, the recommendations contained therein have been followed.

Phone No.: _____ Date: _____

Final Grading Inspection (This section shall be completed on all projects.)

The grading has been satisfactorily completed in accordance with the approved plans. All required drainage devices have been installed; slope planting has been established; and adequate provisions have been made for drainage of surface waters from each building site. The recommendations of the soils engineer and/or engineering geologist (if such persons were employed) have been incorporated in the work.
