- [8] Projects significantly in excess of \$5MM will be evaluated by the Engineer; potential deposit may be required.
- [9] Set by State
- [10] Permit Issuance pursuant to VMC 12.48.030(c)
Engineering Investigation fee charged for time directly associated with engineering investigations, route definition, and coordination for each individual load.
The City Escort fee is set at a flat rate to reflect a minimum of two hours of fully burdened overtime labor required for escort responses, a cost incurred regardless of the actual response duration
- [11] In 2024, the CPI escalation for Land Development and Engineering fees were incorrectly calculated. In lieu of correcting the fees after Council adoption, the adopted fees were charged for calendar year 2024 at a reduced rate and corrected during the December 2025 CPI fee update.

MAY 1, 2025

TO: CALIFORNIA FIRE AND RESCUE MUTUAL AID SYSTEM AGENCIES

SUBJECT: **Updated 2025 Rate Letter effective May 1, 2025, for any and all California Fire Assistance Agreement (CFAA) orders and requests.**

Dear Chief:

The following reimbursement rates apply to responses under the terms and conditions of the CFAA for the period beginning May 1, 2025.

Personnel Base Rates: These rates ONLY apply if your agency does NOT have rates on file.

- Overhead at or above Strike Team/Task Force Leader: \$38.16 (ST) \$57.24 (OT) per hour
- Engine Company and Overhead at or below Strike Team/Task Force Leader (Trainee): \$29.98 (ST) \$44.97 (OT) per hour

NOTE: Base Rates are required to be shown at straight time (ST) on the annual salary survey; however, agencies will be reimbursed at an overtime rate (OT) of time and one half at invoicing for base rates. Both straight and overtime rates are reflected above.

The following apparatus rates will apply to responses effective at the time of initial dispatch:

There is a 16-hour maximum allowable charge per 24-hour period from the time of initial dispatch:

Emergency Apparatus Rates

REQUIRED SIGNATURE:

Fire agency's authorized representative **MUST** sign all required rates and forms in [MARS](#), to the best of their knowledge and belief, and **UNDER PENALTY OF PERJURY**, the annual salary survey agreeing to comply with the terms and conditions of the Agreement, as well as the cooperator agency's internal accounting and expense reimbursement standards. Fire agencies will be required to accept either the base rate(s), and/or the fire agency's salary rates through the required signature process.

The CFAA requires each local fire agency to provide a yearly salary survey. If the California Governor's Office of Emergency Services (Cal OES) does not receive a signed salary survey from your agency's authorized representative indicating your agency's rates, Cal OES will have no basis to process an invoice back to your agency for payment for any responses ordered and requested through the CFAA.

REVIEW:

Fire agencies will be required upon request to provide Cal OES supporting documentation used to establish rates and method of pay. Cal OES will request yearly samples from selected agencies for review by Cal OES and the Committee. Upon request, the fire agency will have thirty (30) calendar days to provide Cal OES with required information. This process does not supersede the Examination and Audit process as outlined in this Agreement.

For any questions regarding the updated annual rate letter or the [Instructions for Completing the Cal OES Salary Survey](#) in MARS, please contact the Fire and Rescue Branch support staff at (916) 845-8711 or by email at cfaareimbursement@caloes.ca.gov. If you have questions regarding the management and oversight of the CFAA, please contact Deputy Chief Lori Lopez at lori.lopez@caloes.ca.gov.

Sincerely,

Lori Lopez

Miscellaneous Equipment Rental Rates are available on the Internet at:

<https://www.dot.ca.gov/programs/construction/equipment-rental-rates-and-labor-surcharge>

The miscellaneous listing is updated daily.

Changes

Books are no longer available in hard copy and should be downloaded from the internet and printed.

Changes to the equipment rates in the April 1, 2025 book are the result of: 1) fuel costs decreased; 2) interest rates decreased; 3) Producers' Price Index increased; 4) increase in sales tax; and 5) no change in freight (F.O.B.) rates.

Labor Surcharge

The labor surcharge compensates the contractor for statutory payroll items stipulated by various governmental agencies. The six items included are worker's compensation, social security, Medicare, Federal unemployment insurance, State unemployment insurance, and State training taxes. The general rate is an average of the job classifications common to Caltrans projects. The labor surcharges in the April 1, 2025 book are the result of some changes in worker's compensation rates. The rates were derived from using the pure premium rate approved by the Insurance Commissioner effective September 1, 2024 and increasing it by the historical statewide average expense. In the calculation of the labor surcharge for overtime work, the worker's compensation is not included on the premium portion of overtime, as provided by worker's compensation regulations.

The surcharge percentage to be applied to the actual wages paid as provided in Section 9-1.04B [9-1.03A(1b)] of the *Standard Specifications* will be **10 percent for regular time (RT) and 10 percent for overtime (OT)**.

Exceptions to the general rate are listed below. These classifications were chosen because of high worker's compensation insurance costs. Forward questions, regarding worker's compensation rating and proper labor surcharge usage, to the rental rate personnel in the Division of Construction.

An appropriate labor surcharge will be established by the Division of Construction for work that is determined by the resident engineer to be covered by Longshoreman and Harbor Worker's Act.

Background

By the authority described in Section 9-1.04 [9-1.03A] of the *Standard Specifications*, compensation for work paid by force account is determined to be the total of the direct equipment costs (rental rate) plus a 15 percent markup for all overhead not included as direct costs. The direct costs include fuel, oil, lubrication, supplies, small tools, necessary attachments, repairs and maintenance, depreciation, storage, cost of facilities capital, overhaul and all incidentals. The labor costs required to provide the above listed items are also included. The operator cost is not included in the equipment rate.

The calculated rate represents the cost of owning and operating the equipment, which is likely to be lower than the rate charged by a rental yard. The rental yard rate may include additional overhead and profit as well as a premium for short-term rentals. In certain situations, factors are applied to the calculated rates to provide ownership-only rates for delay situations or operating-only rates for overtime situations. The rates are calculated using factors for the direct cost items described above. The factors represent an average and are applied to all makes and models of equipment within the class. **All rates are hourly, unless stated otherwise.**

Overtime and Multiple Shifts

Certain equipment costs are fixed on an annual basis, no matter how many hours are worked. Once an estimate of the costs and hours of use is made, a rate can be determined. When more than the estimated number of hours are worked (Overtime or Multiple Shift), a duplication of payment occurs on the fixed cost portion of the equipment rate.

In order to avoid this duplication, Caltrans uses a reduced rate for the Overtime or Multiple Shift situations. The definition of Overtime or Multiple Shift periods is:

Overtime hours occur after the equipment has worked at force account, eight hours per day (or after the daily equivalent of forty hours per week for special work schedules - 4/10 or 9/80). Multiple shift hours will be paid at the same rate as overtime hours.

The hours shown on the Daily Extra Work Bill will determine when the Overtime and Multiple Shift is to be used. **When the hours worked on force account are eight or less, straight time rates will be used.** When the hours worked on force account are more than eight, Overtime and Multiple Shifts rates will be used. Saturday, Sunday or holiday work will be paid at the overtime rate except in those cases where these days are considered working days in the special provisions.

Be advised the computed overtime rates are no longer rounded and now equal the product of the straight time rate and overtime factor. The Overtime and Multiple Shift Factors are recalculated annually to reflect changes in the operating costs.

Delays

As described in Section 8-1.07C [8-1.09] of the *Standard Specifications*, the Delay Factor may be applied to the equipment rental rate. The Delay Factor may be the basis for compensation for idle equipment time on an excusable delay. The factor has been calculated to include the ownership costs without including operating costs. The Delay Factor recovers all the contractor's non-operating costs in an eight-hour day. If payment is made for equipment on an excusable delay, it is limited to eight hours per day or forty hours per week maximum.

The NONOP class for non-operated items and the TRAFIC class for traffic safety devices have been separated from traditional "rolling stock" equipment when calculating the Delay Factor. These classes are comprised of items whose depreciable lives are related to the number of uses per year, rather than the number of hours per year. Accordingly, the reasonable compensation for the contractor's actual loss has been estimated to equal the cost of facilities capital. **It should be recognized that these items must be out of service before the Delay Factor is applied. For example, if work behind K-rail is delayed, the K-rail should be paid straight time until it is no longer controlling traffic.**

Any use of this factor must have the prior approval of the resident engineer. The Delay Factor is recalculated annually to reflect changes in the operating costs.

Use of Daily Extra Work Bill

Identification codes and rates are intended to be used with the Department's Internet change order billing system. The class is abbreviated using a 5-digit alpha-code, the make (manufacturer), a 4-digit alpha-code, and the code a 7-digit alpha-numeric code. All three codes must be used to define the equipment when using the automated pay system. Since the majority of items are described by per hour rates, each line has an entry for hours with an allowable maximum of 24. Special items with other than hourly rates should be appropriately checked and then entered in the Regular Hours column. For example, 50 Traffic Cones used 3 days (converts to 1.5, 100-cone-days) requires 1.5 be entered in the Regular Hours column. Note that any entry in the Delay Factor column will automatically apply the Delay Factor to every equipment entry on the current report.

Whenever an identification code cannot be found or the rate for a particular date of work performed is not available, updated information should be requested from the resident engineer. It is the resident engineer's responsibility to establish rates for equipment not found in the *Labor Surcharge and Equipment Rental Rates* publication. Support for this determination is available from both District and Headquarters Construction Offices. **Rates are regularly superseded during contract periods, so avoid the use of old publications or expired rates.**

The equipment is presented with a standard configuration capable of performing work commonly encountered on Caltrans projects. Special attachments or accessories are described under the classification heading in the *Labor Surcharge and Equipment Rental Rates* publication. Attachments other than those described by these remarks will be paid only upon direction of the resident engineer.

EQUIPMENT RENTAL RATE

NOTE--THE FOLLOWING RATES ARE IN EFFECT FROM APRIL 1, 2025 THROUGH MARCH 31, 2026

ATTACHMENTS

TRACTOR ATTACHMENTS -including power control units and accessories necessary to provide a functional attachment. Dozer blades are included in the standard configuration for both crawler and heavy, rubber tire tractors.

Rippers are listed from R1 to R8 and Winches for logging or towing are listed from S1 to S5. Equipment model groups are as follows:

1. Case 300 Thru 800 Series, Cat D-2 thru D-4, Deere 400 & 450, Dresser TD-7, TD-8 and TD-9, Fiat-Allis FD-5 Thru FD-7, Komatsu D21E Thru D37P, Liebherr PR711 & PR721.

NON-OPERATED EQUIPMENT (DAILY RATES) [NONOP]

DELAY FACTOR = 0.56 OVERTIME FACTOR = 1.00

Note various units for different items. The following allowance is entered on the extra work bill by using the (unit listed x number of days) in the hours worked column. The following list is limited to items with long estimated lives. Additional traffic related items such as cones and barricades, are still listed under TRAFIC in this publication. Other non-operated items with short estimated lives should be treated as materials and should not be "rented". Non rented items are 1) intended to be job specific (amortized over the life of the project) and 2) have an estimated life measured by number of uses rather than a length of time.

TRUCK, TRUCK TRAILERS, EXCL. DUMP TRUCKS & EQPT TRAIL	[TRUCK]
--	-----------

DELAY FACTOR = 0.12

OVERTIME FACTOR = 0.89

Includes all attachments and accessories related to hauling, with and without trailers as needed. Includes water trucks, freight trucks and passenger vehicles, including 4wd option. Listed by Mfr's Gross Vehicle Weight in Kilograms(pounds). For tractor-trailer units, the gross vehicle weight of the cargo carrying unit or units will control. In the case of water trucks, the tank capacity expressed in kilograms (pounds) of water plus 20%, will determine the gross vehicle weight. For attachment allowance, see attachment class.
