APPROVED CONTRACTOR LICENSING TO PERFORM WORK IN THE RIGHT-OF-WAY

In accordance with the California Department of Consumer Affairs, Contractors State License Board (CSLB), a contractor holding an active Class A - General Engineering Contractor license may perform right-of-way work within the scope authorized by the contractor's CSLB classification and as permitted by the City of Victorville. Contractors holding an applicable Class C - Specialty Contractor license may obtain a City right-of-way permit for work that falls within the scope of their CSLB classification, subject to applicable City codes, details, standards, specifications, and permit requirements. Applicable specialty classifications commonly used for right-of-way work are included herein. Please note, a property owner may NOT obtain a permit for work to be constructed in the public right-of-way.

A - GENERAL ENGINEERING CONTRACTOR

Business & Professions Code, Division 3, Chapter 9. Contractors, Article 4. Classifications 7056.

A general engineering contractor is a contractor whose principal contracting business is in connection with fixed works requiring specialized engineering knowledge and skill, including irrigation, drainage, water power, water supply, flood control, inland waterways, harbors, docks and wharves, shipyards and ports, dams and hydroelectric projects, levees, river control and reclamation works, railroads, highways, streets and roads, tunnels, airports and airways, sewers and sewage disposal plants and systems, waste reduction plants, bridges, overpasses, underpasses and other similar works, pipelines and other systems for the transmission of petroleum and other liquid or gaseous substances, parks, playgrounds and other recreational works, refineries, chemical plants and similar industrial plants requiring specialized engineering knowledge and skill, powerhouses, power plants and other utility plants and installations, mines and metallurgical plants, land leveling and earthmoving projects, excavating, grading, trenching, paving and surfacing work and cement and concrete works in connection with the above mentioned fixed works.

C - SPECIALTY CONTRACTOR

Business & Professions Code, Division 3, Chapter 9. Contractors, Article 4. Classifications 7058.

a. **A specialty contractor is a contractor whose operations are as such the performance of construction work requiring special skill and whose principal contracting business involves the use of specialized building trades or crafts.**
b. **A specialty contractor includes a contractor whose operations include the business of servicing or testing fire extinguishing systems.**
c. **A specialty contractor includes a contractor whose operations are concerned with the installation and laying of carpets, linoleum, and resilient floor covering.**

CLASSIFICATIONS

California Code of Regulations, Title 16, Division 8, Article 3.

C-8 - Concrete Contractor

(ex.: sidewalk, curb, gutter, residential & commercial drive approach)

A concrete contractor forms, pours, places, finishes and installs specified mass, pavement, flat and other concrete work; and places and sets screeds for pavements or flatwork. This class shall not include contractors whose sole contracting business is the application of plaster coatings or the placing and erecting of steel or bars for the reinforcing of mass, pavement, flat and other concrete work.

APPROVED CONTRACTOR LICENSINGTO PERFORM WORK IN THE RIGHT-OF-WAY
CLASSIFICATIONS (continued)

C-10 - Electrical Contractor

(ex.: traffic signals and equipment, lighting, irrigation controller)

An electrical contractor places, installs, erects or connects any electrical wires, fixtures, appliances, apparatus, raceways, conduits, solar photovoltaic cells or any part thereof, which generate, transmit, transform or utilize electrical energy in any form or for any purpose.

C-12 - Earthwork and Paving Contractors

(ex.: grading, trenching, backfill)

An earthwork and paving contractor digs, moves, and places material forming the surface of the earth, other than water, in such a manner that a cut, fill, excavation, grade, trench, backfill, or tunnel (if incidental thereto) can be executed, including the use of explosives for these purposes. This classification includes the mixing, fabricating and placing of paving and any other surfacing materials.

C-27 - Landscaping Contractor

(ex.: assessment districts)

A landscape contractor constructs, maintains, repairs, installs, or subcontracts the development of landscape systems and facilities for public and private gardens and other areas which are designed to aesthetically, architecturally, horticulturally, or functionally improve the grounds within or surrounding a structure or a tract or plot of land. In connection therewith, a landscape contractor prepares and grades plots and areas of land for the installation of any architectural, horticultural and decorative treatment or arrangement.

C-31 - Construction Zone Traffic Control Contractor

(ex.: lane closures, flagging, traffic diversions, temporary traffic control devices)

A construction zone traffic control contractor prepares or removes lane closures, flagging, or traffic diversions, utilizing portable devices, such as cones, delineators, barricades, sign stands, flashing beacons, flashing arrow trailers, and changeable message signs, on roadways, including, but not limited to, public streets, highways, or any public conveyance.

C-32 - Parking and Highway Improvement Contractor

(ex.: signage & striping)

A parking and highway improvement contractor applies and installs protective coatings, vehicle stops, guard rails and mechanical devices, directional lines, buttons, markers, signs and arrows on the horizontal surface of any game court, parking facility, airport, highway or roadway constructed of concrete, asphalt or similar material. This classification includes the surface preparatory work necessary for the application of protective coatings but does not include the re-paving of these surfaces.

C-34 - Pipeline Contractor

(ex.: water and gas pipelines)

A pipeline contractor fabricates and installs pipelines for the conveyance of fluids, such as water, gas, or petroleum, or for the containment or protection of any other material, including the application of protective coatings or systems and the trenching, boring, shoring, backfilling, compacting, paving and surfacing necessary to complete the installation of such pipelines.

C-42 - Sanitation System Contractor

(ex.: sewer and storm drain pipelines)

A sanitation system contractor fabricates and installs cesspools, septic tanks, storm drains, and other sewage disposal and drain structures. This classification includes the laying of cast-iron, steel, concrete, vitreous and nonvitreous pipe and any other hardware associated with these systems
