Email: Waterconserve@victorvilleca.gov

TOILET REPLACEMENT PROGRAM

LIMIT (2) TOILET PER HOUSEHOLD: Toilets are available on a first come – first serve basis. **Apply today!**

- Toilets installed prior to 1994 use 3.5 – 7 gallons per flush (GPF)
- A high efficiency toilet (HET) that uses 1.28 GPF and therefore will flush less water than an older toilet and perform just as well.
- Save water without affecting toilet performance by replacing your old toilet with a HET.
- New HET's are Water Smart. 1.28 GPF, white elongated, (hardware included) and are available to replace 3 GPF or higher toilets only.

Program requirements:

- Property owner must occupy the residence, apply, and complete application for the program.
- Must have an active Victorville Water District (VWD) account and water bill payments up to date.
- Must agree to a pre-inspection and post-inspection.
- Water Conservation Staff will deliver the approved toilet on Wednesdays only.
- Installation and removal of the old toilet is the customer's responsibility.
- Proper disposal of old toilet is required. Call Burrtec to schedule a pickup (760)245-8607.
- Once qualified and approved for a new toilet, customers will be given an appointment for delivery of their toilet, which will be less than seven days.
- Installation and post-inspection of toilet must be scheduled within 7 days after receiving the toilet or customer will incur full cost of the toilet. The amount of \$75.00 will be applied to the customer's water bill.
- Non-residential properties are not eligible for this program at this time.
- 3.5 - 7 GPF toilets and properties constructed after 1994 are not eligible for this program
