I. SENATE BILL 854 REQUIREMENTS: Senate Bill 854 established a new public works contractor registration program which collects fees to fund compliance monitoring and enforcement. All contractors and subcontractors intending to bid or perform work on public works projects will be required to register, and annually renew, online for the program. No contractor or subcontractor may be awarded a contract for public work on a public works project unless registered with the DIR pursuant to Labor Code section 1725.5.

Starting July 1, 2017 the new annual registration fees for public works contractors have increased to \$400.00, and contractors on small projects are exempt from public works registration and electronic certified payroll reporting requirements.

Small Project Exemption:

Contractors who work exclusively on small public work projects are not required to register as a public works or file electronic certified payroll reports for those projects. Contractor are still required to maintain certified payroll records on a continuous basis and provide them to the Labor Commissioner's Office upon request.

The small project exemption applies for public works projects that do not exceed:

- \$25,000 new construction, alteration, installation, demolition or repair
- \$15,000 for maintenance

II. PREVAILING WAGES: In accordance with the provisions of California Labor Code Sections 1720, 1770-1776, 1810, 1813, and 1815, as amended, the Director of the Department of Industrial Relations has determined the general prevailing rate of per diem wages in accordance with the standards set forth in Labor Code Section 1773 for the locality in which the Work is to be performed. It shall be mandatory upon the Contractor to whom the Work is awarded and upon any subcontractor under the Contractor to pay not less than said specified rates to all workers employed by them in the execution of the Work, and shall post a copy of said wage rates at the project site.

Contractor shall be solely responsible for using the correct wage decision and performing accordingly. An error on the part of any awarding body does not relieve the Contractor from the responsibility for payment of the correct State prevailing wage and compliance with the maintenance and inspection of payroll records, posting of prevailing wage rates at work site, employment of apprentices, and other requirements of California Labor Code (1720, 1770-1776, 1810, 1813, and 1815, as amended), California Code of Regulations, Title 8, Section 16000 *et seq.*; and all other applicable State labor laws. Contractor further acknowledges and agrees that it will be independently responsible for reviewing the applicable laws and regulations and effectuating compliance with those laws. Contractor will require the same of all its subcontractors.

AB219 (as applicable) adds Section 1720.9 to the Labor Code the hauling and delivery of ready-mixed concrete to carry out a public works contract, with respect to contracts involving state agency and subdivision of the state Section 1720.9 defines the term “ready-mixed” concrete and specifies that the rate of pay shall be the current prevailing wage “for the geographical area in which the factory or batching plant is located” as determined by the DIR. The statute also requires a written agreement between the party hauling or delivering the ready-mixed concrete and the party that engaged its services.

The delivery company shall provide certified payroll records under Labor Code section 1776(1) to the party that engaged its services and to the general contractor. The time record must be certified by each driver for the performance of job duties.

III. ELECTRONIC CERTIFIED PAYROLL REPORTING (eCPR): Contractors and subcontractors on all public works projects must use this system to furnish certified payroll records (CPRs) to the Labor Commissioner. Contractors and subcontractors who have been submitting PDF copies of their CPRs for earlier projects must also begin using the new system. For more information please go to www.dir.ca.gov under Labor Law Public Works. However, the City of Victorville would like to get copies of all payrolls in order to process the request for payment on a timely manner and for audit purposes.

PROOF OF PAYROLL AND LIEN RELEASES - The City shall make progress payments on any properly completed payment request submitted by the Contractor. Contractor and subcontractors on all public works projects must use the Department of Industrial Relations Electronic Certified Payroll Reporting system to furnish certified payroll records (CPRs) to the Labor Commissioner. Contractors and subcontractors who have been submitting PDF copies of their CPRs for earlier projects must also begin using the new system. For more information please go to www.dir.ca.gov under Labor Law Public Works.

Copies of the Certified Payrolls, Proof of Payroll submissions and appropriate Lien Releases are required with each invoice to the City. Payment of the invoice may be delayed when Payroll related documents and/or lien releases are not included with the invoice. An error on the part on any awarding body does not relieve the Contractor from responsibility for payment of the prevailing wage of per diem wages and penalties pursuant to Labor Code (1770 - 1776).

If payments are to be made for materials or equipment not incorporated in the work but delivered and suitably stored at the site, or at some other location agreed upon in writing, such payments shall be conditional upon submission by the Contractor of bills of sale or such other procedures satisfactory to the City to establish the City's title to such materials or equipment or otherwise protect the City's interest, including applicable insurance and transportation to the site.

The Contractor warrants and guarantees that title to all work, materials and equipment covered by an application for payment will pass to the City of Victorville upon receipt of such payment by the Contractor, free and clear of all liens, claims, security interests, or encumbrances - hereinafter referred to in this section as "liens"; and that no work, materials or equipment covered by a request for payment will have been acquired by the Contractor, or by any other person performing the work at the site or furnishing materials and equipment to the project.

In addition, the Victorville Municipal Code (Title 6—Health and Sanitation, Chapters 6.36 and 6.37 require the separation of designated materials for recycling. Contractors performing work for the City of Victorville will be required to comply with all waste recycling and diversion laws.

XXXIII: CONSTRUCTION AND DEMOLITION MATERIAL RECYCLING: The 2019 California Green Building Standards Code (CalGreen) Sections 4.408 and 5.408 and the City of Victorville Development Code (Title 16, Chapter 5, Article 11) and subsequent updates require all building permit applicants to develop and submit a Construction Waste Management Plan." Current CalGreen standards currently require that 65% of non-hazardous construction waste be diverted from landfill. In addition, construction projects that include land clearing activities are required to divert 100% of trees, stumps, rocks, and associated vegetation and soils resulting primarily from land clearing.

In order to comply with this State mandate, the City requires all contractors that are bidding on construction and/or demolition projects which require permits to fill out the attached "Construction/Demolition Waste Recycling Plan" (C/DWRP, pages 58-59). The plan outlines how the contractor will divert 65% of waste material from the landfill in order to achieve the State goal. At a minimum, contractors must divert scrap metal, concrete, asphalt, green waste/vegetation materials, non-hazardous wood waste, and soil.

The successful contractor will also be required to complete and submit the attached "Summary Waste Disposal and Diversion Report" (SWDDR) at the end of the project. Weight slips documenting actual amounts disposed and diverted must accompany the SWDDR. The SWDDR must be completed at the conclusion of the project and must be submitted to the contract administrator before final payment will be made.

Recycling and Organic Waste Material Diversion Requirements: CA State Law SB 1383 and Victorville Municipal Code Title 6 (Health and Sanitation), Chapters 6.36 and 6.37 mandate the diversion of organic materials and other designated recyclable materials from landfill. Organic materials include vegetation (tree trimmings, leaves, grass clippings, weeds, brush, etc.) as well as non-hazardous wood waste. Contractors are required to comply with waste diversion/recycling mandates and must implement procedures to properly separate all waste materials and participate in City waste diversion programs.

SENATE BILL 854

(<http://www.dir.ca.gov/Public-Works/PublicWorks.html>)

Senate Bill 854 signed into law on June 20, 2014, became effective immediately. It established a new public works Contractor registration program which will collect fees to fund compliance monitoring and enforcement, determine prevailing wage and public works coverage, and hear enforcement appeals.

All Contractors and subcontractors intending to bid or perform work on public works projects will be required to register, and annually renew, online for the program. This is a Department of Industrial Relations (DIR) fee paid to the State of California. The City will not register a Contractor/subcontractor, nor collect funds for registration.

Starting July 1, 2017 the new annual registration fees for public works contractors have increased to \$400.00, and contractors on small projects are exempt from public works registration and electronic certified payroll reporting requirements.

Subcontractor Eligibility. Contractor acknowledges that under Public Contract Code Section 6109 no contractor or subcontractor who is ineligible to bid or work on, or be awarded, a public works project under Labor Code Section 1777.1 or 1777.7 may bid on, be awarded, or perform work as a subcontractor on, a public works project. Contractor is prohibited from performing work on a public works project with a subcontractor who is ineligible to perform work on the public works project under Labor Code Section 1777.1 or 1777.7

Small Project Exemption:

Contractors who work exclusively on small public work projects are not required to register as a public works or file electronic certified payroll reports for those projects. Contractor are still required to maintain certified payroll records on a continuous basis, and provide them to the Labor Commissioner's Office upon request.

The small project exemption applies for public works projects that do not exceed:

- \$25,000 new construction, alteration, installation, demolition or repair
- \$15,000 for maintenance

The City as applicable will be required to fill out a form alerting the DIR of the services you are providing the City. Detailed information is required to complete this form. You may be asked to provide information needed to complete the DIR form. You will be asked to complete this in a timely manner to avoid interruption in the services you are providing.

Notwithstanding anything in the Contract Documents to the contrary, Contractor and all subcontractors shall pay not less than said specified State of California rates to all workers employed by them in the execution of the work contemplated by this Contract. Contractor shall be responsible for using the correct and current prevailing wage rates.

c. **AB219 (as applicable)** adds Section 1720.9 to the Labor Code, the hauling and delivery of ready-mixed concrete to carry out a public works contract, with respect to contracts involving state agency or any political subdivision of the state. Section 1720.9 defines the term “ready-mixed” concrete and specifies that the rate of pay shall be the current prevailing wage “for the geographical area in which the factory or batching plant is located” as determined by the DIR. The statute also requires a written agreement between the party hauling or delivering the ready-mixed concrete and the party that engaged its services. Nothing in Section 1720.9 shall cause any company to be treated as a contractor or subcontractor for any purpose other than the application of this chapter of the Labor Code.

d. The delivery company shall provide certified payroll records under Labor Code section 1776(a) to the party that engaged its services and to the general contractor within five working days after the employee has been paid, accompanied by a written time record within five working days after the employee has been paid, accompanied by a written time record. The time record must be certified by each driver for the performance of job duties.

e. Contractor shall be solely responsible for using the correct wage decision or determination and performing accordingly. An error on the part of any awarding body does not relieve the Contractor from the responsibility for payment of the correct State prevailing wage and compliance with the maintenance and inspection of payroll records, posting of prevailing wage rates at work site, employment of apprentices, and other requirements of California Labor Code Section 1720, et seq.; California Code of Regulations, Title 8, Section 16000 et seq.; and all other applicable State labor laws. Contractor further acknowledges and agrees that it will be independently responsible for reviewing the applicable laws and regulations and effectuating compliance with those laws. Contractor will require the same of all its subcontractors.

NOTE: Confirmation of certified payroll submittal to the Department of Industrial Relations (DIR) is required with each invoice to the City. Payment of the invoice may be delayed when proof of certified payroll submittal is not included with the Contractor’s invoice.
